

## **Our philosophy**

*“Our philosophy is based on respect and our individual need to make progress and improve ourselves.*

*It is the cornerstone of our company and we do our very best to transmit its values to all our staff.*

*We want our company to be welcoming and friendly, a company where we know everyone and where everyone can fulfil their ambitions and contribute to making our cooperation a reference in its field.*

*To achieve this, we need to be at the very front line in terms of respect for our environment and our traditional craftsmanship and by always being on the lookout for the best solutions available.*

*We need to be concrete and to avoid over-diversifying. Our objective must always be to do our very best for giving total satisfaction to the persons who buy and use our casks and barrels and constantly having the feeling of doing a first-class job.»*
